----- Air Quality Department Complaint Form -----

Reference Number: 2015102944341848

Business Name: Hickman Egg Factory  
Violation Address: 32425 W. Salome Hwy, Arlington Az.  
Major East/West: Salome  
Major North/South: Ward  
On the: SW Corner  
City: ARLINGTON

Violation Description: I want to report a Violation by the Hickman Egg Factory. Number 1. Hickman's Egg Factory is in Violation of the 1st condition of its Air Quality Permit to Operate # 140062 ( That permit says they can not discharge into the Air anything that is recognized as offensive, obnoxious, or objectionable. 2. Every evening between 6:30 and 9:00 P.M. There is an Odor in the Air that is Putrid and makes it hard to Breathe. It smells of Rotting Vegetables (Dimethyl Sulfide.) It is really getting out of control here. From what I understand Air Quality only has equipment to test for Hydrogen Sulfide, which is Rotten Egg Odor. There is and never has been such an Odor that comes from the Egg Factory. The Hazardous Chemicals that is being Emitted by the Chicken Manure , and the Brown Smoke that comes from the Rotary Dryer when they are making Fertilizer is Bad for the Health of the Children that play outside at the Schools in the Area, such as Arlington Elementary, and Palo Verde Elementary. Not to mention the Kids that live and play in the Area That lives close to the Egg Factory. Also there are the Elderly and the retired People that are effected by those same Chemicals. I feel that if Air Quality Control whether it is State or County needs to get the Proper Testing Equipment , before making Statements that Hickman's is Operating according to the Air Quality Standards. Thank You.

Date: 10/29/2015 Time: 6:30
